<i>Total Noncritical Out of Limit</i>	0	0	2	0	0	0	3	0	3	2	0	0	10

**Calibration Types:**

- Scheduled:* calibration performed as part of normal calibration program.
- Start:* requested calibration performed for new or relocated instruments.
- Demand:* requested calibration performed that is not part of normal calibration program.
- Non-schedule:* calibration performed after a repair.
- End:* requested calibration performed for critical instruments priori to changing to an inactive status.

This report was printed on 06-Sep and generated using the following selection Criteria:  
 where Operational Unit = "Global Clinical Supply"  
 and Event Date >= 01-Jan  
 and Event Date <= 31-Dec
